

# BLASTPHEMY

## PRODUCT SUMMARY

A blast deflector unlike any other – the Blastphemy is constructed with tried and true 17-4 stainless steel. This device is multi-caliber and is compatible with all HUXWRX HX-QD muzzle brakes and flash hiders (up to .338). The Blastphemy is designed to redirect the blast forward protecting the shooter and bystanders from micro-concussions and overpressure. Additionally, it doubles as a thread protector for your muzzle device. It is ideal for shooting against cover and/or in the prone position. Similar to HUXWRX muzzle devices, the Blastphemy is coated with QPQ black nitride which case-hardens the surface for greater durability and corrosion resistance.

<b>WEIGHT:</b>	6.08 oz / 172 g
<b>OVERALL LENGTH:</b>	3.28 in / 8.33 cm
<b>DIAMETER:</b>	1.60 in / 4.06 cm
<b>CALIBER:</b>	up to .338
<b>COATING:</b>	Black nitride QPQ finish
<b>MATERIALS UTILIZED:</b>	17-4 H900
